Thank you for your message.  
Please find in attachment the proposal OFR012299 for the supply of HepaRG additives and Base medium.  
In your message you are requesting 4 tubes of additives (2xADD710C & 2xADD20C) but only 3 bottles of Base medium (3xMIL700C). Is that correct? Normally one tube of additives if for one bottle of Base medium.  
Please tell me if we need to correct the proposal.  
Kind regards
